- **Get directions.** You can use the Echo Auto to get directions to your destination. To get directions, simply say "Alexa, directions to [destination]."
- **Make calls.** You can use the Echo Auto to make calls to your contacts. To make a call, simply say "Alexa, call [contact name]."
- **Set reminders.** You can use the Echo Auto to set reminders. To set a reminder, simply say "Alexa, remind me to [reminder]."
- **Check the weather.** You can use the Echo Auto to check the weather. To check the weather, simply say "Alexa, what's the weather?"

These are just a few of the things that you can do with the Echo Auto. For a complete list of features, please refer to the Echo Auto user manual.

Here are a few tips for using your Echo Auto:

- **Use the wake word.** The wake word is the word that you use to activate Alexa. The default wake word is "Alexa," but you can change it to something else if you prefer. To change the wake word, open the Echo Auto app and tap the "Settings" icon. Then, tap "Wake Word" and select the wake word that you want to use.
- **Use voice commands.** The Echo Auto is a voice-controlled device, so you can use voice commands to control it. To use a voice command, simply say "Alexa" followed by the command that you want to execute. For example, to play music, you would say "Alexa, play [artist name] [song name]."
- **Use the Echo Auto app.** The Echo Auto app can be used to control your Echo Auto from your smartphone. With the Echo Auto app, you can adjust the volume, change the wake word, and more. To open the Echo Auto app, simply tap the Echo Auto icon on your smartphone's home screen.

By following these tips, you'll be able to get the most out of your Echo Auto and make your drives more enjoyable and productive.

If you're having problems with your Echo Auto, here are a few things that you can try:

- **Make sure that your Echo Auto is connected to your smartphone.** To check the connection, open the Echo Auto app and tap the "Settings" icon. Then, tap "Device" and make sure that the Echo Auto is listed as "Connected."

- **Make sure that your Echo Auto is within range of your smartphone.** The Echo Auto has a range of about 30 feet. If your Echo Auto is too far away from your smartphone, it will not be able to connect.
- **Restart your Echo Auto.** To restart your Echo Auto, unplug it from the power outlet and then plug it back in.
- **Reset your Echo Auto.** To reset your Echo Auto, press and hold the action button for 10 seconds. The action button is located on the top of the Echo Auto, next to the microphone.

If you're still having problems with your Echo Auto, please contact Amazon customer service.

The Amazon Echo Auto is a powerful and versatile device that can make your drives more enjoyable and productive. With this guide, you've learned everything you need to know to get started with your Echo Auto. Now go out and enjoy the ride!
